OPERATION SMART- SCIENCE

Girls Inc. develops girls' enthusiasm for and skills in science, through hands-on interactive activities through observation and experimentation, using the principles of STEM, realizing its impact on everything they do.

OPERATION SMART- TECHNOLOGY PROGRAM

Girls will become digital citizens by learning how to use computer hardware, software, and internet applications.

OPERATION SMART-MATH

Girls will develop an enthusiasm for and skills in math, through hands on, interactive, creative and non-traditional ways.

ECONOMIC LITERACY

Girls will learn how to manage, invest, and save money. They will also develop skills to becoming financially savvy.

MEDIA LITERACY

Girls will increase their awareness and the scope and power of the media and the effects of media on girls and women. They will create media that's realistic and reflects their lives.

MIND & BODY

A mindfulness and nutrition program: Girls will learn how to self-reflect and create positive body images of themselves while being aware nutritional benefits of healthy eating and food preparation

SPORTING CHANCE

Girls will build a foundation for enjoying sports and physical activity while building, athletic skills and healthy habits.

SERVICE LEARNING, LEADERSHIP AND COMMUNITY ACTION

Girls will learn why it is important to advocate for themselves and other girls globally. They will celebrate girls and women as leaders and social change agents while realizing their own power as community. resources.

PERFORMING ARTS

Girls will learn and use the combined skills from music, dance, and step while learning choreography and rehearsing musical numbers for end of summer showcase.

VISUAL ARTS

Girls will learn to develop their creative skills, of seeing and imagine making through a variety of mediums such as paint, clay, sculpturing, and drawing.
